Hairstyles**

The Fish Therapy Treatment is a very relaxing way to treat the skin. Removing layers of dead & unhealthy skin is part of the natural process of skin growth and this innovative treatment is enjoyable & therapeutic.

The Garra Rufa fish also known as the doctor fish or nibble fish are a type of toothless carp & are naturally found in hot springs near Kangal, Turkey. Garra Rufa have been used across the far east as a skin treatment for centuries. The enzymes secreted by the Garra Rufa fish are believed to improve skin regeneration.
